## ABOUT ME

Professional IT specialist with a strong foundation in software programming and network administration. Proven ability to deliver high-quality technical solutions both independently and within collaborative teams. Highly disciplined, honest, and adaptable to rapidly evolving technology trends, with a continuous focus on optimizing systems and driving project success.

## WORK EXPERIENCE

**Technical Support Engineer, PT. Nokia Solution and Network Indonesia** **Apr 2025 - Present**

- Provided technical support for network and IT infrastructure issues to maintain system stability.
- Assisted customers in troubleshooting and resolving complex network configuration and connectivity problems.

**Network Engineer, PT. Lintas Teknologi Evolusi** **Jan 2023 - Mar 2025**

- Upgraded, configured, and integrated network devices into the Indosat Network.
- Retrieved telemetry data and resolved system alarms and operational errors.
- Streamlined workflows using Python to automate device configurations, upgrade procedures, and cross-divisional document templates.

**Mentor, Aguna Course** **Nov 2022 - Mar 2023**

- Guided scholarship participants through the Google IT Support Course, resulting in successful course completions.
- Provided technical troubleshooting and step-by-step solutions for participants facing learning difficulties.
- Facilitated inclusive mentorship by supporting participants with disabilities, ensuring an accessible learning environment.

**Front End, Aguna Course** **Dec 2020 - Jul 2021**

- Developed and maintained features for the Aguna Course website using Nuxt.js (JavaScript framework).
- Integrated RESTful APIs to retrieve and render dynamic content seamlessly on the frontend.
- Created responsive and user-friendly web pages tailored to project requirements.

## EDUCATION

**SMKN 01 NGLEGOK (Vocational High School)** **Jun 2019 - Jun 2022**
Computer and Network Engineering

- Relevant coursework: Network Administration, Web Development, and System Troubleshooting.

## ADDITIONAL INFORMATION

- **Technical Skills:** Web Development with JavaScript, Automation with Python, Network Configuration & Integration, Network Troubleshooting & Maintenance.
- **Certifications:** CCNA, IT Support Google, Nokia Certified Network Routing Specialist I (NRS I).
